

How To

INSTRUCTIONS ON USING YOUR TEMPLATE

At **Flourish & Fold**, we are proud to use Corjl, giving you endless possibilities to make our templates uniquely your own. Whether you're updating text, adjusting layout, or preparing to print, Corjl makes customization easy—even if you've never edited a design before.

Here's a quick guide to help you get started:

Step 1: Editing Your Text

- Click on any text box directly to start editing, or use the text options in the right-hand tools panel.
- From the tools panel, you can also:
 1. Add new text boxes
 2. Change font style, size, or color
 3. Adjust letter spacing and line spacing
 4. Experiment more for a perfect custom fit

Step 2: Preparing to Save

Before downloading, you may have a few options to optimize your file for printing (Depending on the template you ordered):

- Choose your paper size – this won't affect your design size but helps with layout.
- Enable "Multiples Per Page" to print more than one copy on a single sheet (if the design allows).
- Add bleed and trim marks (if available) for precise cutting.

See Page 2 To Continue

Step 3: Download & Print

When you're ready, click to Download your finished file.

- Choose the format that works best for you (PDF is ideal for printing). If printing at home, make sure your print settings are set to "Scale to Fit" or "Actual Size" depending on your preference.
- You can also take your file to a local or online print shop for professional results.

Step 4: Tips for Getting the Most Out of Corjl

Make the most of your customization experience with these helpful pointers: Use a laptop or desktop for full control. While Corjl works on mobile, editing is much easier on a larger screen.

- Experiment with font combos. Mix and match typefaces to create a custom look that fits your vibe.
- Stick to the safe zone. If you're planning to print, keep your text and key elements within the template's margins to avoid anything getting cut off.
- Download a test copy first. Print one draft to make sure everything looks perfect before printing in bulk.
- Duplicate pages if needed. For designs with multiple pages or backside options, you can duplicate and customize additional pages as needed.

If you ever need help, we're just a message away! We're here to make sure your design experience is stress-free and creatively fun.

And don't forget to browse more beautiful templates and paper goods with **Flourish & Fold**—we'd love to be part of your next celebration!
